WHAT IS  
THE  
HOMEWORK  
CLUB?

The purpose of this is to provide learning support and inspire confidence in our secondary school learners to develop socially and academically in a more meaningful way. The club focuses on providing subject support, practising good study habits and study skills.

Thanks to a handful of keen learners showing Ownership Ora and regularly attending after school tutoring offered by their teachers... we eventually formed the club.

We hope to grow this program designed to supplement your child's learning.
